THE RAILWAY REPORT. THE RAILWAY EBPORT, in yeaterday's issue we published a letter in an Alexandrian man of business in which expressed his aurprise that only portions of report of the Bailway Commission were to given to the public. We fail to see that re is any grounds for surprise at all. On

the contrary, we should have been greatly astonished if the Egyptian Government had dared to set before the public as unexpurgated edition of the work. Official susceptibilities have to be considered, and it is only natural that where they claims and the contract that where they claim and the contract of Egyptian Government invited three carefully soluted specialists in milway matters to come to Egypt and atout three gutteners obtained a sufficient insight into the administration of the Egyptian State Realways to be innoposition to make a careful report on the whole system. It is almost needless to point out that the experts in question, Lord Farratton of the Egyptian State Realways to be innoposition to make a careful report under the properties of the contract of the contract

one tovernment is an indirect but very high compliment, therefore, to the thoroughness with which the commissioners have performed their task, and we must ougratulate Lord Farrer, Major Le Breton, and Mr. Bury on having been so outspoken that only portions of their report are to be allowed to reach the public.
